HAVE YOUR SAY ON THE 3 ALTERNATIVE JACKSON ARCHITECTURAL CONCEPT DESIGNS FOR PTV SUBSTATION ON ST. KILDA JUNCTION MEDIAN STRIP

Last night Public Transport Victoria (PTV) held a Community information session presenting the 3 alternative concept designs by Jackson Architecture for the St. Kilda Junction substation, as per the attached. If you were unable to attend last night's session you still have the opportunity to have your say on which design concept you prefer by taking the short survey on the PTV website as per the link

<https://getinvolved.transport.vic.gov.au/st-kilda-junction-substation>

What can you do?

We encourage all JAAG members to let PTV know your preferred concept design and any other comments you may have regarding this substation prior to the 6th December, 2017 when PTV will close the survey.

Together we can make a difference to our precinct.
